

Simple Assessment

It takes no more than 30 minutes

✂ You can find another test on the left tab of this document

Frontend developer assessment:

You can access the demo project here:

<https://bitbucket.org/dredsoftlabs/prohouse/src/main/>

Task: Run the demo project and add the following simple features:

- Description:

Please update the landing page with the following changes:

- Replace the current background image and update the animation accordingly.
- Add a dark/light mode toggle switch to the navigation bar.
- Ensure a smooth transition between dark and light modes when toggled.

- Requirements:

- The design must be fully responsive across all devices (desktop, tablet, and mobile).

- Deliverables:

- Record a short video demonstrating the updated landing page and the toggle feature.
- Send the video after completion.
