Simple Assessment

It takes no more than 30 minutes

Designer assessment:

You can access the demo project here:
https://bitbucket.org/dredsoftlabs/prohouse/src/main/

Task: Run the demo project and design a Dashboard:

- **Description:**

  Based on the existing dashboard, create a new design.

- **Requirements:**

  - Before/after comparison

  - Your redesigned screens.

  - A write-up (2–4 paragraphs): pain points you identified, and how your solution improves the UX.

- **Evaluation Criteria:**

  - Critical thinking and the ability to spot flaws

  - Quality of redesign decisions

  - Communication skills (how well they justify their approach)

    - Record a video of how it looks.

- Send the video after completion.
